DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house, located on the west side of South Vermont Street is a two story, four bay frame structure covered with composition siding. It was presumably built as a duplex and probably dates from the early 20th century. Windows have two over two pane sashes trimmed with flat topped molded architraves. Fenestration at the front elevation is arranged symmetrically with doors in the bays at each end and windows placed closely together in the two central bays. A brick chimney is located inside the north end wall. There is a one story shed extension to the rear. A shed roofed porch supported by turned posts extends across the front.
